

Retraction

Retraction: Overexpression of microRNA-132 enhances the radiosensitivity of cervical cancer cells by down-regulating Bmi-1**Gui-Feng Liu¹, Shu-Hua Zhang², Xue-Feng Li³, Li-Yan Cao¹, Zhan-Zhao Fu² and Shao-Nan Yu¹**¹Department of Radiology, China-Japan Union Hospital of Jilin University, Changchun 130033, P.R. China²Operating Room, China-Japan Union Hospital of Jilin University, Changchun 130033, P.R. China³Department of Anesthesiology, China-Japan Union Hospital of Jilin University, Changchun 130033, P.R. China**Published:** May 04, 2023**Copyright:** © 2023 Liu et al. This is an open access article distributed under the terms of the [Creative Commons Attribution License](#) (CC BY 3.0), which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited.

This article has been retracted: In Figure 8, panel B, three of the tumor images are duplicates of images published in three other journals [1–3]. In addition, multiple internal image duplications occurred in Figure 4. The authors are unable to recover the original data and cannot verify the accuracy of their conclusions. As a result, all authors have agreed to the retraction of this paper from Oncotarget.
