This article has been corrected: In the Materials and Methods section, under the ‘MRI Acquisition,’ heading, the model of MRI scanner has been incorrectly spelled as “All MRI examinations were performed with a 3.0 T MR scanner (Trio; Siemens, Erlangen, German) in the Second Hospital of Anhui Medical University.” However, the correct model is “All MRI examinations were performed with a 3.0 T MR scanner (Verio; Siemens, Erlangen, German) in the Second Hospital of Anhui Medical University.” The authors declare that these corrections do not change the results or conclusions of this paper.
